

## Industrial Designs Filing & Requirement

According to Law No. 31 Year 2000 concerning Industrial Design, Indonesia Intellectual property Office grants registration for designs that comprise shapes, configurations, or compositions of lines or colors, or a combination of both, in three-dimensional or two-dimensional forms and that produce an aesthetic impression. The design can be applied to a product, goods, industrial commodity, or handicraft items. The design must be novel i.e. it must not have been published anywhere in the world.

### Filing requirements :

The following documents must be submitted with each design application.

1. Power of Attorney signed by the applicant – no legalisation or notarisation is necessary.
2. Declaration of Ownership - no legalisation or notarisation is necessary.
3. Drawings or photos of the design.
4. A written description of the design (we will arrange translation into Bahasa Indonesia).
5. Design Application Form (we complete this on the applicant's behalf).

The following documents must be submitted within 1 month of the Indonesian filing date.

1. Assignment of Industrial Design. This is normally required if the applicant is anyone other than the designer. However, if the designer is no longer available, we can ask the Designs Office to accept a notarised and legalised copy of the original.
2. Certified Copy of the Design Priority Document, if a priority claim is made (we will arrange translation into Bahasa Indonesia).

### Application procedure and time frame :

An application Industrial Designs shall qualify minimum to get filing date of application Acceptance in order to get further been processed. If all file was fledged therefore get application Number and date of acceptance (filing date). To check does that application administrative (6 months since accepting date) one that intent to determine that application Designs that Industry have fulfilling all requirement and reasonably to been announced. Administrative examination is to check cover physical check, formalization check and cast sharpness check designs industry.

After accomplishes all requirement, therefore that application is declared to society via Industrial Designs Official News within the period of 3 months. Announcement aims to give chance to society to propose opposition. If no opposition therefore Design Office will publish Design certificate.

Opposition just get up to been done 3 months that. If exists Opposition therefore Examiner will do `substantive examination 3 months since Opposition is done, with check Opposition file and Suppliant Application file. Office Designs to deserve refuses or accept Industrial Design application.
